## **Belmont Academy**

#### **Behaviour Policy**

## **National Legislation**

The Education Act 1997 places on all schools the duty to state and pursue policies designed to promote good behaviour and discipline.

Ofsted is required to examine and report on behaviour, policies and their implementation, and to report on exclusion rates.

## Philosophy of the school

At Belmont, we aim to secure a happy, safe, positive and purposeful environment where children can meet their potential both academically and emotionally. Our emphasis is on developing the social and emotional aspects of children's development which enable them to manage their feelings, self-regulate and use these to positive effect. We aim to ensure that all members of the school community treat others with respect and courtesy. These attitudes are promoted through positive adult role models and the celebration of these qualities in learners (represented by our values).

## **General Principles**

It is our aim to provide an environment where children take responsibility for their actions and understand the importance of following the school's expectations of behaviour. This in turn should secure the skills in children to become successful, contributing members of society.

All members of the school community aim to encourage the children to develop high standards of behaviour. This is promoted through explicit teaching and modelling and through the use of encouragement and praise.

Belmont Academy recognises the important role parents play in shaping a child's behaviour. Parents are made aware of the Behaviour Policy when a child is admitted and they are asked to sign the Home–School Agreement. This helps to ensure a common understanding of our high expectations of good behaviour and an agreement with the procedures for dealing with unacceptable behaviour.

## Procedures

#### Whole School Code of Conduct

At Belmont, our expectations of behaviour are underpinned by values. These are:

• respect, resilience, responsibility, kindness, and honesty.

Every child from Reception to Year 6 is a member of one of four Houses. They remain a member of the house throughout their time at Belmont. House points are used to foster a sense of team working and celebrate positive behaviour. Every House has a House Captain from Year 6.

#### In classrooms

The behaviour hierarchy sets the parameters of the school's expectations and provides teachers with a framework to guide appropriate rewards and sanctions. The behaviour chart visually displays where the children's behaviour is falling in terms of the hierarchy. It is expected that effective procedures and routines are created by the class teacher to ensure effective management of behaviour. This is underpinned by effective adult-student relationships.

## In the playground

The behaviour policy of the school remains in place when students are not inside the school building and staff act accordingly. If a child's behaviour in the playground at lunch is unacceptable or poses a health and safety risk to others, they will be asked to return to the building (this may be to a senior leader or class teacher). The incident will be investigated and discussed with the child by the class teacher and/or a senior leader if required due to the stage of severity (see Behaviour Hierarchy).

#### Personalised strategies

We recognise that some pupils, as a result of their needs, will require more personalised behaviour support and associated strategies. Pupils' behaviour may be more closely monitored due to this and appropriate support will be put in place.

## **Operational Procedures**

Teachers will always use positive reinforcement to support the behaviour of children in the school. Developing respectful and trusting relationships between adults and children promotes positive and desirable behaviours across the school. The focus of behaviour management is to recognise, celebrate and reward good behaviour. When dealing with behaviour, adults will also consider the following policies:

- Special Educational Needs
- Anti-Bullying
- Positive Handling
- Safeguarding

## Behaviour Management in KS1/2

The behaviour strategy used in key stages I & 2 follows a behaviour chart/ladder (underpinned by the behaviour hierarchy).

#### Rewards

- I. Verbal praise
- 2. House points
- 3. Class teacher postcard
- 4. Headteacher postcard.

House points are recorded using *Class Dojo*. This is used by the adult in the class. It provides a clear and visual way for children's positive behaviour to be rewarded.

#### Behaviour Chart/Ladder

The pupils may move up and down the ladder according to positive behaviour or breach of school expectations. It is the responsibility of the adult in the classroom to physically move names. This visually displays where the children's behaviour is falling in terms of the hierarchy. Children can move within the system throughout the day and all children start the day on the positive statement: I'm having a good day.

#### Sanctions

When a pupil's behaviour is disruptive or not conducive to a purposeful learning environment, the class teacher should take responsibility for dealing with this in the first instance. Children should be made aware that their behaviour is not acceptable and given clear reasons why.

Sanctions follow this order with movement down the relationships ladder, on-going if necessary.

- 1. Non-verbal prompt (this may include eye contact, body language, positioning, proximity, facial expressions movement and gestures).
- 2. Verbal correction.
- 3. Verbal warning and movement to 'Stage I- warning' with the opportunity to move positively up the ladder.
- 4. Movement to 'Stage 2 5 minutes of my break/lunch with my teacher'. Child to stay in from break/lunch for 5 minutes, in their classroom with an adult.

- 5. Movement to 'Stage 3 10 minutes of my break/lunch'. The teacher will send the child to a leader to spend part of their lunch with them. The class teacher is responsible for recording this on the behaviour log.
- 6. Movement to 'Stage 4 I must be sent to a senior leader'. The adult will call for the HT/DHT/AHT immediately. The class teacher is responsible for recording this on the behaviour log.

Once a sanction has been met, it is important that the pupil returns to 'l'm having a good day'. If a child is on 'l'm on a warning' prior to a break of lunchtime, they are to remain on this stage until they demonstrate a positive change in their behaviour. Children with additional needs may require a slightly different or graduated approach when being reprimanded but the principle and expectations remains the same. Any changes should be agreed with the Inclusion Leader.

When a behaviour incident has arisen as a direct result of need, this has to be looked at on individual basis. Some children with identified SEN will require more individualised support.

## **Behaviour Management in EYFS**

The behaviour strategy used in EYFS follows a behaviour chart or ladder, that is more simplified than in that used in KSI and 2. Children can move within the system throughout the day and all children start the day on a positive statement.

In EYFS, a similar approach is adopted to help the children to learn to deal with different social situations. Adults model to the children through these interactions and help them to decide on an appropriate solution to a problem. The adults encourage the children to think about the impact their actions have on other's thoughts and feelings. The children are encouraged to take ownership of their own behaviour through the language of 'choices'.

#### Rewards

- I. Verbal praise
- 2. Behaviour ladder
- 3. Class teacher postcard
- 4. Headteacher postcard

#### Sanctions

Sanctions can include:

- I. Non-verbal prompts
- 2. Verbal corrections
- 3. Movement on the behaviour ladder, including time out.
- 4. Missing part of lunch
- 5. Being sent to a senior leader
- 6. Internal/External exclusion.

#### **Recording incidents**

When a pupil moves down the behaviour chart ladder to 'Stage 3' or 'Stage 4', the class teacher records this in on our recording system. This is monitored by senior leaders so early intervention can be put in place if necessary. It is the class teacher's responsibility to record this.

If a child displays 'Stage 3' or 'Stage 4' behaviour during break time, it is the on-duty teacher's responsibility to inform the class teacher. The class teacher must then record this incident and follow any appropriate sanctions.

If a child displays 'Stage 3' or 'Stage 4' behaviour during lunch time, support staff will communicate this with SLT and/or the class teacher. The class teacher will then record this incident and follow any appropriate sanctions.

## **Roles and Responsibilities**

All members of staff are responsible for promoting good behaviour and tackling undesirable behaviour.

Members of staff on duty at playtimes and lunchtimes are responsible for reporting any behaviour issues they deal with to the class teacher. If children are involved in physical behaviour, racism, homophobia or sexism, this must be reported directly to the Headteacher or Deputy Headteacher.

If there are significant concerns about a child's behaviour, the class teacher should discuss this informally with parents/carers in the first instance. It is important to investigate potential root causes of the behaviour in order to seek successful solutions and ensure all parties are working collaboratively and consistently. If there is no improvement in the child's behaviour this will be referred to the SENCo/Inclusion Manager an/or SLT. As such, referral may be made to outside agencies.

As a community, it is our belief that the school and parents must work as one to ensure that positive outcomes are possible for our students. It is the responsibility of all parents to work collaboratively and support the school (and individual members of staff within the school) to ensure that students work positively and are able to follow the expectations of a student at Belmont. Where this is not the case, it is the expectation that parents support the school in setting sanctions and ensure any issues are discussed and addressed at home between parents and students.

## **Monitoring and Evaluation**

The effectiveness of this policy will be monitored independently and in conjunction with monitoring of other associated policies. It is the responsibility of the Headteacher (in conjunction with the senior leadership team) to monitor, evaluate and report on the effectiveness of the policy to the staff and governors. The policy should be reviewed annually.

## **Reference to Associated Policies**

This policy should be read alongside the following policies:

- Special Educational Needs
- Anti-Bullying
- Positive Handling
- Safeguarding

Head Teacher Postcard

I have made excellent choices today.

I am having a good day.

I need to think about some of the choices I have made.

I must have a time-out because of my behaviour choices.
